

# Community Volunteers

## Covid-19.....and beyond

*"Volunteers give their time and talents for free but are worth their weight in gold"*

*Councillor Brenda O'Dowd*

**If you are already registered with the Parish Council as a volunteer – THANK YOU!** Your telephone calls and actions go a long way toward helping parishioners in need and define the kind of community in which we all want to live.

**If not, would you like to become a volunteer?** With coronavirus on the increase, tighter restrictions, Test and Trace, the rule of six and the threat of lockdown version 2 around the corner, your services could potentially be very much in need again. Please get in touch to register your interest:

**01362 637166**

**Kelly Pickard, Parish Clerk**

### Beyond Covid-19

The scope of the volunteer service is likely to change and expand to meet different community needs in the future. Swanton Morley Parish Council are looking at ways for the community to become more involved with village projects to help to improve local facilities, the local environment and quality of life for all. The exact projects will evolve over the next couple of months and we will be advertising in the Link-up and sending out a mail shot with the Mardler to explain in more detail. A good outcome would be to eventually have the potential to match both individuals and groups interested in volunteering with appropriate opportunities in our community.
